causes and measures to prevent it. Macromolecules: the meaning in the constitution of living beings. The role of chemistry in understanding the origin and development of life. Block 2. Calculations in Chemical Reactions Chemical Reactions:Experimental Verification of the Law of Permanent Proportions. Calculations in chemical reactions: masses of substances, solutions, unclean or excess reagents. The reactions are burning. Experimental monitoring of energy exchanges in chemical reactions. Experimental identification of factors influencing the rate of chemical reaction. Experimental characteristic of acidic and basic solutions. Indicators and pH.Block 3. Powers and movementsSothere forces as cause of movement changes:The relative nature of the movement. A qualitative study of direct and kuryiin movements. Accelerating.Quantitative study of movement. Galileo and the experimental study of free fall. The vector nature of the forces. Translation balance. The effect of the rotation of forces. The effect of the rotation of forces. The principles of dynamics as overcoming the physics of common sense. Forms of interaction. Experimental definition of the Hook Act. The forces of friction and the determination of friction factors. Identify and analyze movements and forces in everyday life. Overcoming the Sky-Earth Barrier: Astronomy and Universal Gravity: Geocentric System. His questioning and the appearance of a heliocentric model. Copernicus and the first great scientific revolution. The consequences of the confrontation between dogmatism and the freedom of investigation. Importance Galileo and his apps. Overcoming the Sky-Earth barrier: universal gravity. The weight of the bodies. Satellite applications. Speed, frequency and period. The current concept of the universe. Static liquid: Pressure. The fundamental principle of fluid is static. Hydraulic machines: pressure transfer. Buoyancy: The Archimedes principle. Experimental density definition. Aplicaciones.La atmospheric pressure: creating an experience to emphasize it. Apps.Block 4. Deepening the study of changesEnergy, work and warmth: The concept and characteristics of energy. Types of energy. Energy transfer mechanisms: work and heat. Forms of mechanical energy: kinetics and gravitational potential. Change it by doing your job. Exploring how quickly work is done: the concept of power. Machines: pulleys and sloping plane. Interpretation of the current concept of nature of heat as a transfer of energy. Heat balance. Heat machines and their performance. The Energy Conservation and Transformation Act and its consequences. The role of energy in our lives. Efficiency in energy transformation. Degradation of energy. The nature, advantages and disadvantages of different methods of obtaining electric energy. Interpretation of the electricity bill. Waves: Light and Sound:Ripple Phenomena. Waves: classification, types and characteristics. Sound. Origin, distribution and properties. Eco.La light. Experimental study of the spread, reflection and refraction of light. Electromagnetic spectrum. The application of wave phenomena in everyday life. Block 5. The contribution of science to a sustainable futureTechnous development of sustainable development: the global challenges facing humanity today: limitless pollution, climate change, resource depletion, loss of biodiversity, etc. The importance of civic science education to participate in decision-making. Education and science culture. I'm working on a course to approve the physics and chemistry of 4th ESO, completely free with hundreds of exercises and problems solved. If you miss any topic tell me in the comments We all improve the course, so leave me your suggestions in the comments to the blog. I leave you some physics and chemistry exam exercises for you to practice for exams such as supporting Professor10demates Scientific Method and its steps Of Steps Changing Units by Conversion Ratios Theme 1 Movements, Cinematic Remember that every time you like, share or leave a positive comment (both on Facebook, on YouTube, Twitter, , in the blog profesor10demates or in otros foros. ) , me esteis Dando vuestro apoyo. Ahora also ten'is en mi blog un botoncillo por si me quer'is invite you to the cafe. 4o ESO Geografa e Historia He studied early research at the school of Sant Antoni de Pego and taught in Alicante. Degree in Philosophy and Writing section of history at the University of Valencia. He was an adjunct professor of undergraduate Catalan language and literature. Personal InformationInterest in Technology, Information, Anthropology, Ecology, Sustainability, Sustainability, Electronic LearningProfessive Experience1992-2002, Professor of Computer Science in a Bachelor's Degree in Higher Vocational Training at the Andorra School of Informatics.2003-present, Professor of ICT at Batxelor Nurses, Information and Business University of Andorra. Full-time initiation as a lecturer at the University of Andorra, www.uda.adFormaci'eUniversitat Oberta de Catalunya 2007 - 2nd degree in computer science Engineering University of Andorra 2000-2003 - Xavier Vives and Sabato (Iguada, 1952) has a degree in philosophy from the University of Barcelona and a diploma in industrial design from Elisava and LaLotja. He taught design theory at Elisava School and Massan School, and was head of the textile industry. He currently works as an illustrator and is a professor of design theory and informal media at gaspar camp dIguada Municipal School. He has done exhibitions with various artistic methods, currently working with 3D computer software. Jose Vives Rego (Barcelona, 1945) es Katerdetico Emarito from the University of Barcelona, Licenciado y Graduado en Biology (1968), Doctor of Microbiology (1973) and Master in Technology Management (ESADE, 1989-90). From 1968 to 1997 he was a consultant for Spanish and European companies in various sectors. Scientific Committees of the European Commission (1997-2006) and the European Child Support Agency (2003-2006). Author of scientific art culos en el ambito de la microbiology acu'tica y environment, biotechnology, JOAN VIVES RIB (Badalona, 1966) es licenciado en Psicolog 'a (UB), Master of Psychology del Deporte (UAB), Promoter of Physical Activity and Healthy Lifestyle (UAB), Master in Therapy Breve Estrategui (Centro de Terapiastrat'gica, 2011-12), HR Technical (PIMEC), practicing PNL (Gestalt Institute) and Senior Coach Baloncesto (FEB). Despu's de un largo per'odo trabajando como entrenador y director t'cnico de baloncesto, en 1997 empieza ejercer como psic'ologo del Deporte y del Randimiento, realizando tareas de asesoramiento (coaching) y Prelogo los j'venes, esos seres inquisitors e inquisitors con los que veces no se sabe que hacer. Pasotas unas veces, rebeldes otras, confuc 100 pensamientos para meditar © Jose Gomez Munoz1- No es insensato darle m's importancia a las cosas esto este mas muerto que mi bisabuelo. Donde Ata Recently? Is there so much work already in Spain, and so don't tell me about the dreams I've been through Hortalesa and along Lasinfantas Street I turned towards San Bartome, on the way to Chuek Square. [...] New timesApenas did not differ anything in the lapenumbra of the hall. The rain began to beat the crystals pancracio Bar was terrible, small, with wooden tables and chairs. The owner, a woman of medium and strong face, looked that it was not. Lilitava looked drunk around her. He admired the hot light dancing in the hollow in one of the lasparads. It's fire, a.d. We have a third microphone. I'm going to allow myself to put on a point that I wrote four years ago as part of a novel (Your Track . . . . . Christmas fairy tale Snow creaked. A squeak under the marabunta shoes that were thrown out on Christmas Eve. And (quote-supermarioep) Wait a second, please, I'll read the message they sent me if that's how you tell me. (quote) What I can tell you, Hi mercury I gave like so you already have 102. How could you make a Facebook with that name? I understand that if not. I doubt they put a counter-return. Most of the libraries that used it no longer put it as an option. On the other hand, yes, I see a bit of Baltasar, refers to the online library, or what is the same ©sta. To put some order in the forum, the next time you have Hello, I understand that selling a virtual book gives the author 80% and 20% stays with you. In the case of the physical book I have to imagine that it's a z...
